[Any other information you would like to tell us?](#)

*The food questionnaire is very important, so we can provide the best possible chef services to our guests.

*Our Chef's job is to take this knowledge of what you like best coupled with our chef's experience and Caribbean touch and personalized your services. Our Chef has outstanding reviews and his creativity and flavors are praised by all of our past clients.

*The # of People with specific diets/allergies will have a different menu. They will not be counted in the regular menu.

*We highly recommend Chef services for our clients, Our rates are fair and more economic than eating out daily. The food is always fresh and our chef uses natural products, he takes pride in making everything himself like the sauces, creams, ceviche, seafood, marinates....

*Recommendations:

On Vacation, cooking for large groups and doing dishes, meal after meal is not part of the vacation experience we want for our guests or the best way to spend time in Paradise. After years of experience we highly recommend that on vacation you relax and be served. When you get the Private chef quote and divide it among the guest you will see it's definitely worth it.

Life is about Making Unforgettable Memories!!!
